What is Star *ebek* ?

Star *ebek* is an **International Accelerated Reading Development Programme** that improves the reading age levels of students from grade 2 - 12. This program helps improve the reading and understanding ability of the students which in turn helps them understand any subject they put their mind to.

In the advent of this digital age, over-reliance on electronic gadgets and e-learning is inevitable. Although it is a powerful tool, depending solely on it can make learning less personal, less engaging and in the process less effective.

Star *ebek* pivots around cultivating traditional book reading habit, a pleasurable activity. We believe in every child's unique reading ability and alongside Renaissance's monitoring methods we customize this program to suit each and every child and therefore enhancing their communication and lexical competency.

Problems faced in developing reading skills

- ★ **Do you know the Reading Age level of your child?**
- ★ **Do you know the right ZPD (Zone of Proximal Development) level for your child?**
- ★ **Is your child reading the right level of books based on their ZPD level?**
- ★ **Do you want to improve the communication skills of your child?**
